The screenshot shows the NetDMR website's home page. At the top, there is a navigation bar with links for 'NetDMR', 'Home', 'FAQs', and 'Getting Started'. The main content area features a large background image of a mountain lake. Overlaid on this is a dark blue banner with the text 'Welcome to NetDMR!' and a subtext: 'If you are a permittee, you may be able to use this website to complete and submit DMRs electronically for your facility.' Below the banner is a white form titled 'Select Regulatory Authority'. The form contains a message: 'You must choose a regulatory authority before you can login.' Underneath is a dropdown menu labeled 'Regulatory Authority' with 'Nevada DEP' selected. At the bottom of the form is a blue button labeled 'Go'.

Note: The **first** person creating an account for NetDMR must be a person that will be signing (Signatory role) the DMRs. This person will automatically be given Permit Administrator role. As others in your company or data providers (such as labs) create an account and request Permit Administrator, Edit, or View roles, this person will be able to approve access. All other Signatory requests must be approved by the Regulatory Authority.

Enter your User Name and Password. Click Submit.

Click on the Request Access

Enter the 9 digit Permit ID and select the Role from the drop down menu and Click “Update”. You can request access for more than one NPDES ID.

Request Access to Permits and Associated DMRs

Enter Permit ID

Enter the ID for the permit whose DMRs you would like to access and click the Update button to see the roles that you can request. Repeat this process for each permit you would like to request access to. You can make one or more access requests from this page.

Permit ID:

Role:

Choose the Role(s): The initial request for “Signatory” will automatically include the Permit Administrator role. Choose Signatory, click on Add Request. Others at your facility may request the Signatory, Permit Administrator, Edit and/or View roles.

Note: The first person to sign up for the permit cannot be a consultant, it must be the permittee who applied for the permit. They can then choose to give another person Signatory Authority.

Request Access to Permits and Associated DMRs

TIP: Until the first Signatory privilege is granted for a permit, no read only/edit accesses or privileges can be requested for the permit.

Additional information is required for the Signatory. Enter the required information and click Submit. **Be sure to answer the first question as it is easily missed.** You are required to answer your relationship to the facility.

Also, if you are the authorized representative, click in the radio button next to the statement. If you are going to be authorized by another person (such as the Mayor, President of the company), click on the radio button next to “I am authorized by the person below.....”, fill in the person’s name, title and phone number. You may currently be authorized for the paper submittal of the DMR form, and you will need to have the authorized representative sign your Subscriber Agreement to show that you are now “authorized” to submit the electronic DMR as well.

It is very **important** to check the appropriate radio button below. If you check the wrong button, you will have to create your account over as the Authorized Official’s information will not be incorporated into the Subscriber Agreement.

You will notice that monthly, yearly, and quarterly requirements are included in these search results. DMRs that meet a specific criteria are available in NetDMR. Appendix G – explains how the anticipated DMRs (empty slots) are generated in NetDMR. You have the option rather than to display all permitted features and discharges to narrow down your search criteria.

Permitted Feature (referred to as an outfall previously).

Discharge – you may have several groups of limits based on their frequency of reporting. For example you may have a Permitted Feature for 001 with monthly, quarterly and yearly requirements. The Discharge number is the field that has been used to uniquely group this information. In this example, you could have an 001-M, 001-Q and 001-Y.

No Data Indicator (NODI)

3 options for reporting

- #1 **Form level** – when saved all value fields will be populated with NODI
- #2 **Parameter level** - when saved all value fields for that parameter will be populated with NODI
- #3 **Individual value field level** – only that Value field will be populated

Form level & Parameter – You must click **APPLY** or NetDMR will ignore the entry.

Form Level (#1) - When you choose the form NODI from the pull down menu and Click Apply, notice all individual value fields below will be populated with that NODI when saved.

Parameter Level (#2) – When you choose the parameter NODI from the pull down menu and Click Apply, notice all individual value fields for that specific parameter will be populated with that NODI when saved.

Unit Codes are pre-populated with the requirements in your permit. If you measured in some other unit, you will need to change that field. Do not change either of these fields as they will result in a error when submitting. Please convert into the units used in the Permit.

Frequency of Analysis and Sample Type are also pre-populated. If you have different values, use the pull down menu to choose the appropriate answer.

Fill in all of the appropriate data. Notice their are several pull-down fields, including the field to enter greater than, less than, etc. Do not change either of these fields as they will result in a error when submitting.

Always SAVE before you navigate away from the page.

Recommend that you “Save and Continue” first, then “Save & Exit”

Errors may need to be resolved prior to the information being saved. When you click on “Save & Continue” the hard errors or soft errors will be highlighted.

Hard & Soft DMR errors

You must correct all “Hard” errors before the DMRs can be SAVED.

Soft errors – Informational type message. You are not required to change DMR data based on these errors; however, you must click on the “Acknowledge” box for each individual soft error in order to Save the DMR data.

A recommendation has already been submitted for a system modification to eliminate the requirement to acknowledge soft errors.

If you click on “Save and Exit”, the errors will not be highlighted and you will have to look in the DMR status field to see that there are errors. You can also search for any permitted features that have a Status of **“NetDMR Validation Errors”**

DMR Data Entry Completed

When DMR data entry is completed for all permitted features & discharges, **recommend** you Search DMRs & CORs. Enter the Permit ID and under Status choose “NetDMR Validation Errors” and Search.

A list of any DMRs with errors that will not be processed for signature will appear. You will need to Edit DMR, click GO. Make sure the Status shows NetDMR Validated after Save.

2 - Must click on the Acknowledge box for each individual “Soft” error.
